[Statistics Program Keygen](#)

The screenshot displays the PSPP (Predictive Statistics Program) interface. The main window is titled '*test-data.sav [DataSet3] — PSPP Data Editor' and shows a data grid with columns for Case, Q100, and various Q1.A and Q2.A items. A smaller window titled '*PSPP Syntax Editor' is open, showing the command '1 freq /var=Q1_A_1 to Q1_A_3.'. A third window titled 'Output — PSPP Output Viewer' displays the results of the frequency analysis. It includes two tables: one for 'I really enjoy using PSPP' and another for 'PSPP is a good replacement for SPSS'. Both tables show frequency, percent, valid percent, and cumulative percent for values 1, 2, 3, and 5. The 'I really enjoy using PSPP' table has a total of 30 cases, while the 'PSPP is a good replacement for SPSS' table has a total of 30 cases.

A quick illustration of PSPP 1.0.1
